U.F.A. Annual Meeting Nominations Called For February 1st

The annual meeting of the Didsbury Local U.F.A. was held Friday afternoon last. The following officers were elected: President, Mr. Roy McNaughton; Vice-President, Mr. R. Eubank; Secretary, Mr. W. Schmidt; Directors: Messrs. J. McDougall, N. S. Clarke, C. W. Gibbs, A. O. Fischer and W. J. McCoy.

Mr. Roy McNaughton was appointed delegate to the U.F.A. convention being held at Edmonton this week.

Demonstrates at Alta. Products Exhibition

The products of the Rosebud Flour Mills are being exhibited at the Alberta Products Exhibition which is being held in Calgary this week.

Mr. and Mrs. Weber will demonstrate the pancake flour by making waffles and pancakes. Mr. Weber informs us that the pancake flour is going over big and that wherever they have introduced it they are receiving repeat orders.

Cow Testing Asscn. Meets January 27th.

The annual meeting of the Didsbury Cow Testing Association will be held in the old United Church building on Wednesday, January 27th at 2 p.m. sharp. Besides the regular business, Mr. Murray, principal of the Olds School of Agriculture, and Dr. McEwan, the local veterinarian will both speak at the meeting on subjects that will be interesting to dairymen. Members are requested to be present and bring at least one interested neighbor.

Curling Notes.

Didsbury was represented at Crossfield's curl last week by: McCloy, skip; Fisher, Lee and Eckel. They entered in the distributors and Merchants events, and were successful in winning first prize in the distributors event.

The friendly games between Didsbury and Bowden Wednesday night resulted in Bowden getting the edge. At Didsbury, Clarke and Cook won their games, while Fisher and McCloy lost. At Bowden the Johnsons took both their games, and Edwards lost one and won one.

Dave Edwards, Dave Sinclair, Tommy Johnson and Alex McNaughton are curling at Calgary tonight. So far they are only having indifferent success. Up to Tuesday night they had won two and lost three games.

LOCAL & GENERAL

Miss M. Staughton was a Calgary visitor on Saturday.

Mr. Chas. Cook was a visitor to the south-rn city last week end.

Mons. Chapter of the I.O.D.E. met at the home of Mrs. Jim Caithness last Tuesday evening.

Ramon Navarro in "Daybreak" at the Opera House tonight. (Thurs.) Don't fail to see this star in another masterpiece.

Mrs. Henry Goehring left on Wednesday for Youngstown to see her father who is seriously ill.

Nels Jurenu, who lives in the Westdale district, had the misfortune while working in the farm yard to fall and dislocate his shoulder.

On January 15th, the intermediate group of the C.G.I.T. held a toboggan party. The remainder of the evening was spent at the home of Jessie McJoy, where a delightful chicken supper was served. After games the group dispersed.

"The Lawyer's Secret" at the Opera House Monday and Tuesday next week. A stupendous drama with a five-act cast: Clive Brook, Charles Rogers, Richard Arden, Fay Wray and Jean Arthur. It is interesting to note that Fay Wray is an Alberta girl.

Mr. and Mrs. A. G. Studer motored to Calgary Tuesday to meet Mrs. Rodaway, who is on her way home to Seattle from visiting her daughters, Mrs. M. Campbell, of Glace Bay, N.S., and Mrs. Cecil Studer, of Lethbridge.

In spite of the cold weather, the card party and social evening given by St. Cyprian's W.A. at the home of Mr. and Mrs. E. K. Pratt on Friday evening, was one of the best attended affairs given by the Auxiliary. Besides the large number from town, a goodly number from the country also attended. Prize winners at whist were: Ladies' 1st, Mrs. J. W. Phillips; 2nd, Mrs. H. Goehring. Gents 1st, Mr. L. McClung; 2nd, Mr. H. Simon. The lucky chair winners were: Mrs. Roger Barrett and Mr. J. Scutcheon. Supper was served, after which the crowd danced till well into the wee small hours.

"Y" Notes.

The "Y" Girls held their monthly meeting at the home of Mrs. W. McLaughlin on Tuesday night. A large number of members and friends were present.

A very helpful topic, "Resolved that we Give Time, Money and Service to Our Y" was effectively dealt with by six of the girls. This was followed with a short but interesting discussion. A brief paper on "Christian Citizenship" was given.

It was decided to put on a drive during the next month for the "Name Quilt." The group was then divided into two sides, the losing side to supply the program for the next social.

NOTICE

The skating rink which is at present being maintained and operated by the Town of Didsbury, is not open to the public on Sundays for skating or any other sports. Those youths who have been availing themselves of the free use of the rink for the past few Sundays are accordingly warned to keep off these premises on future Sundays. A number of accidents have occurred, entailing injury to children, and as the Council cannot be responsible for proper supervision and care of children on days when the rink is not legally open to the public, parents are requested to co-operate with the Town authorities in keeping children off of the rink premises on these days. By Order of the Council:

W. A. AUSTIN,
Secretary-Treasurer.

HOCKEY

DIDSBURY vs. CROSSFIELD.

Undeated through the first half of the Bowden League schedule, Didsbury started the second half by trimming Crossfield 5-1 on Friday night. The win made it seven straight for the locals.

The game was a battles one from the fans' standpoint. Both teams lacked finish around the net and missed many chances of scoring. Didsbury played a better brand of combination, and only exceptional net minding by Wayne Stauffer saved the visitors from a real slaughter. Young, Miller, and Stevens excelled for Crossfield, but relied on too much individual work and had difficulty in solving the local defense, their only goal being a shot through a maze of legs and skates, which gave the goalie little chance to save.

The first stanza saw Didsbury run in two corners, Johnson from Woodlock, and Hardy from Cook. The locals scored two more goals when Johnson again scored on a pass from Woodlock, and Cook scored right in for a shot. Hugel, smashing the rebound beyond Stauffer. Cook and Johnson combined, the former taking the pass to score number five. The game slowed up in the final frame, Stevens working through and shooting from the blueline for the lone Crossfield tally.

Didsbury: Russell, Robinson and Hardy; Johnson, Cook and Woodlock; Geiger and Hugel. Crossfield: Stauffer, Murdoch and E. McFadden; Young, Miller and Stevens; Sharpe, Nichol and H. McFadden.

AIRDRIE vs. DIDSBURY.

Didsbury took a 4-3 victory at Airdrie on Tuesday night in what a fair-sized crowd of local fans admitted was one of the best battles seen on the loop this season. Airdrie: Wright, Robertson and Hatt; Tees, Barbridge and Davis; Klein, Fletcher and Super. Didsbury: Russell, Robinson and Geiger; Woodlock, Cook and Johnson; Hardy, Hugel, and R. Geeder.

The Business Girls Club has taken the form of a Bridge Club, and the next meeting will be held at the home of Misses Irene Grant and Nellie Wilson.

Knox United Church, Annual Meeting

The annual meeting of Knox United Church, Didsbury was held Sunday evening, Rev. A. J. Mitchell presiding. A large number were present.

After devotional exercises, the reports from the various organizations were received and showed the church to be in a healthy condition, financially, despite the adverse conditions of the past year.

Mr. H. W. Chambers, session clerk, congratulated the Ladies Aid and the leaders in the young people's work on the results obtained. He spoke appreciatively of the work being done by the Pastor, and commended the "M. & M." fund to the congregation. "No church could be successful without the missionary spirit," Mr. J. Robertson spoke of the work at Westcott.

The Minister, in a brief address, expressed his gratification at the spirit which prevailed in the congregation. The attendance at the services had increased satisfactorily during the past months. By the addition of Dr. Clarke and Mr. C. W. Gibbs, the session had been greatly strengthened. A splendid beginning for 1932 had been made at the New Year's Communion, with its record attendance and the reception of twenty new members. He thanked the leaders for their herky co-operation, and all for their kindly appreciative attitude to Mrs. Mitchell and himself. There was a splendid chance at Knox United of building up a strong church and doing a good work for the Kingdom.

The election of officers resulted in Messrs. Austin and Hawkes being added to the board of managers in place of Messrs. Chambers and N. S. Clarke, whose terms of office had expired and who were not eligible for election for one year. Miss D. Raiton was chosen as organist. Mr. Jonsson acted as secretary to the meeting.

Coming Events

Hospital Hard Time Dance on Friday, January 29th.

The Melvin Go-Getters are holding a dance at Melvin School on Friday, February 5th. After lunch it will be a leap year dance. Good music. Admission: Gents 50c.

A daily dash of ENO in a glass of water every morning, tones up and sweetens the entire system.

ENOS

FRUIT SALT

One For All; All For One

Speaking to the brilliant gathering of celebrities assembled at the recent Lord Mayor's banquet at the Guildhall, Premier Ramsay MacDonald declared: "We have been witnessing the complete breakdown of the doctrine of national economic self-sufficiency."

Truer, more significant words have seldom been uttered, but it is doubtful if people generally have yet come to a full realization of how futile the doctrine of self-sufficiency is, regardless of the fact whether it is applied in the realm of national economies or in the narrower sphere of an individual's life.

Belief that one is sufficient unto oneself is an outgrowth of egotism which in itself is a sign of weakness and a fatal defect in character. Belief in oneself is essential to success, but to take the position that incorporated within ourselves are all the elements essential to success, that nothing more is needed, that we, and we alone apart from everybody and everything, can achieve, is a mistaken, a fatal attitude.

And what is true of the individual is equally true of nations and peoples. During the progress of the Great War the nations of the world learned that not one of them, no matter how obscure or isolated it might be, nor how great and powerful it might be, could live unto and within itself alone. Not one proved self-sufficient. Rather, the Great War revealed the dependence of one on another, and the interdependence of all.

The Great War was a struggle for the supremacy of one of two conflicting ideas or principles in government—democracy versus autocracy. Either autocracy as represented by the German Kaiser and based on militarism, or democracy as represented by those countries having constitutional governments based on the will of the people governed, had to prevail. Autocracy was defeated and democracy triumphed.

Out of that triumph arose the demand for the "self determination of peoples," and several new nations came into being. Unfortunately, these little nations felt impelled first of all to develop a so-called national spirit, and to attempt to make their new found independence as nations secure, by making themselves supposedly self-contained, self-sufficient. To that end they strove to shut other nations, and the peoples and products of other nations, out. In doing so, they actually shut themselves in. The interdependence taught by the Great War was lost in the nationalistic, economic struggle which succeeded the war.

But, as Ramsay MacDonald points out, this doctrine of national and economic self-sufficiency has completely broken down. One nation suffers loss of trade, and all nations find they, too, are suffering as a result. Unemployment develops in one country and automatically the resultant loss of purchasing power in the citizens of that country brings about unemployment in other countries which formerly did business with it.

The United States is, perhaps, the most compact, self-contained nation in the world today. Its national policies for many decades have been developed in that belief. Yet today the United States is suffering enormous declines in trade, with millions of its people unemployed, with its government facing a deficit this year of the stupendous sum of two billions of dollars. Why? Because the prosperity of the United States is dependent upon the prosperity of other nations; because, despite all its proud boastsings in the past, it is not a self-contained country, its self-sufficiency is not complete; because world depression prevails and the United States cannot escape its calamitous results.

The cities and towns of Western Canada, as well, and the doctors, lawyers, bankers, merchants, insurance and financial men, artisans and laborers, who make up these urban communities are suffering today because, first of all, the farmers are suffering through loss of crops, low prices for what they produce, inability to produce, inability to market their produce at a profit. Nothing else is wrong with the cities and towns, but the fact that the great primary industry of this country, agriculture, upon which they depend just as truly as do the farmers themselves, has been stricken. The cities and towns are not sufficient unto themselves; they are dependent on the farms. And the farmers in turn are dependent upon the great consuming markets in the cities of the world to purchase their produce. Each class is dependent on the other; all are interdependent.

May this great lesson of the war and of these difficult post-war years sink in the consciousness of all people, may it become indelibly engraved in the memories of all, never to be forgotten, may it convince the statesmen of the world that their policies must in future be based in interdependence rather than in self-sufficiency, and founded on a large and broad internationalism rather than in a selfish, narrow nationalism.

When Recovery Will Come

Canada will begin to recover when the world begins to recover, and the world will begin to recover when the impediments to world trade are removed. War debts cancelled, and the frozen gold piles of the United States and France so melted that they will flow into the coffers of other countries in need of the yellow metal.

Federal Bird Sanctuaries

Canada now has 40 federal bird sanctuaries across the Dominion. Surveys indicate that these sanctuaries are effective in preserving bird life. A census of birds in a group of ten reservations on the north shore of the St. Lawrence River in 1930 showed an average increase of all varieties of 19 per cent. since the year 1925.

Thousands Visit Observatory

Over 22,800 persons visited the Dominion Astrophysical Observatory of the Department of the Interior at Victoria, British Columbia, during the year ended March 31, 1931.

Discussing Support For Canadian Dollar

Heavy Discount Proves Boomerang To United States Business

United States banking and business interests are finding the heavy discount on the Canadian dollar somewhat of a boomerang and are considering action to alleviate their distress.

The New York Herald-Tribune, in a financial page item, remarking that banking interests in this country are taking note of the situation, says there is talk in Wall Street of "support" for the Dominion currency.

"It was pointed out," says the paper, "that the further the Canadian dollar declines the more difficult it becomes to do business with Canada."

If prices are scaled up to meet the deficiency realized on exchange, it naturally becomes quite impossible to compete with Canadian or British goods in the Dominion. It is reasoned that New York's interests in supporting the Canadian dollar should receive additional support from banks and corporations which have bank balances in Canada. Corporations whose subsidiaries operate in Canada but pay dividends to parent companies on this side of the border should also be interested in supporting the Canadian dollar.

Just what form the "support" would take is not pointed out, but the Herald-Tribune says it is "recognized generally it would be of mutual benefit."

Publication Restricted

Bible Printed In England By Only Three Firms

Only three publishers are allowed to print the Bible in England. They are the Oxford and Cambridge presses and the King's Printer. These publishers have found that "there is money in the Bible" for millions of copies are sold or given away each year. Similar restrictions do not hold in the United States. Any one who wishes, may publish the Bible, and, as was recently announced, an "Americanized" version of it will soon be issued. The American Bible Society estimates that in 1930 alone 24,000,000 copies of the Bible, or of sections of it, including one book or more, were sold or presented to those who could not afford to purchase them.

Colonization Progress

Many People Settled On Land Under Government Policy

The policy of encouraging colonization within Canada, instituted in September last year by Hon. W. A. Gordon, Minister of Immigration, and conducted in the form of a co-ordinated effort by the department and railway companies, has resulted in return to the land of approximately 42,882 people, according to a statement made public at Ottawa.

Detailed returns to November 30, 1931, show a total of 6,640 families and 12,682 single men have been placed on farms since October 1, 1930, the former as settlers and the single men as farm laborers.

Cultural Value Zero

Replying to a questionnaire sent him by a New York college organ, H. L. Mencken, author, stated the attention of college students at United States universities is concentrated upon mean and trivial things. Very few of the professors who teach in them "are really civilized men, and relatively few of the students come from civilized homes. Thus, the cultural value of the college tends to approximate zero."

Miller's Worm Powders will clear the stomach and bowels of worms so that the child will no more be troubled by their ravages. The powders are sweet to the taste and no child will object to taking them. They are non-injurious in their composition, and while in some cases they may cause vomiting, that must not be taken as a sign that they are nauseating, but as an indication of their effective work.

Ancient Coins Found

Coins believed to be over 600 years old have been found in a cemetery in Borsod, near Budapest, Hungary. They bear the effigy of King St. Stephen of Hungary, who was crowned in A.D. 1001, when Hungary first became an independent kingdom. The coins were found near the spot where a brutal place of the bronze age was recently discovered.

Urge Use Of Home Products

Building Industry Said To Be Importing Huge Quantities Of Materials

An indictment of the building industry for importing millions of dollars' worth of materials annually, at the expense of similar produced-in-Canada goods is made in a survey released by the Montreal industrial commission on unemployment. The survey, based on a year's work by Norman Holland, chairman of the commission, will be mailed to all members of the Royal Architectural Institute of Canada. It is announced.

Canada imported from the United States in the fiscal year ended March 31, 1931, building material valued at \$28,945,437. The document deals with approximately 80 separate foreign products which, it is claimed, investigation shows, were used in Canadian buildings.

Summing up, the document gives the following belief of the unemployment commission: "We believe if an independent commission were given authority to check over all specifications for such buildings as receive financial support from the public of Canada, this would bring back to Canadian factories in one year at least half of the \$27,000,000 worth of business which now goes to foreign countries."

Diseases Of Ancients

X-Ray Reveals Troubles Of People Who Lived 2,000 Years Ago

In ancient Egypt at least four out of five persons had pyorrhea, childhood was no hygienic bed of roses, and arthritis and arteriosclerosis presumably were favorite topics when the elders swapped clinical notes.

These are discoveries summarized after two years' study at the Field Museum of Natural History in Chicago, where scientists diverted X-rays from modern medical problems to historical secrets, focused them back over the centuries, and conducted autopsies on persons dead 2,000 years.

A Fox To Asthma. Give Asthma half a chance and it gains ground rapidly. But give it repeated treatment of Dr. J. D. Kellogg's Asthma Remedy and it will fall back even faster. There is no half way measure when it comes to asthma. It goes right to work and drives asthma out. It reaches the inmost breathing passages and leaves no place for the trouble to lurk. Have it by you for ready use.

Had To Be Satisfied

"H'm! I don't like the look of your wife at all, Mr. Blunt," said the doctor, after he had examined the patient.

"Neither do I," answered Blunt, "but still she's a good wife and looks after the children and the house well—so I can't grumble, I suppose."

Interesting Statistics

Show Indians In Canada Are Thrifty And Prosperous

The census of Indians in Canada in 1929 gave the total number of men, women and children as 108,012. These are, of course, not all farmers, some being engaged in hunting and trapping, in lumbering, commercial fishing, and in transportation. However, according to the records of the Department of Indian Affairs, they had in the above year all told 1,101,175 acres of land fenced and 254,028 acres under actual cultivation. Other figures relating to the whole Indian community are: Brick, stone or frame dwellings, 9,442; other dwellings (mostly log), 11,880; churches, 358; council houses, 124; schoolhouses, 200; sawmills, 32. In addition to the number of day schoolhouses, there are 78 residential schools devoted to the education of the Indian population.

One of the commonest complaints of Indians is worms, and the most effective application for them is Mother Graves' Worm Exterminator.

Canadian People Are Buying More Luxuries

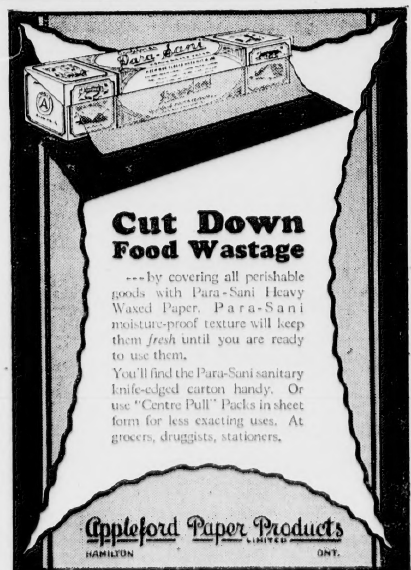

Indicates Confidence In General Improvement Of Economic Conditions

The Canadian public has been purchasing more luxuries recently than for months past, indicating a possible loosening up of ready money and a more general confidence throughout the Dominion in the general improvement of economic conditions, states the department of trade and commerce in a statistical review.

The Dominion Bureau of Statistics, says the review, reports larger retail sales of radio and other musical instruments in October than in any month since last December. Sales by candy stores also were greater. Retail sales by furniture stores and by general department stores also were reported larger.

No More Examinations

Extreme examinations in Manitoba schools will be abolished in favour of recommendations by teachers on pupils' work throughout the term. Examinations which in former years have been the test for graduating from public to high schools, have been discontinued. In future graduation from public schools will be made on recommendation of the teacher.

Cut Down Food Wastage

---by covering all perishable goods with Para-Sani Heavy Waxed Paper. Para-Sani moisture-proof texture will keep them fresh until you are ready to use them.

You'll find the Para-Sani sanitary knife-edged carton handy. Or use "Centre Pull" Packs in sheet form for less exacting uses. At grocers, druggists, stationers.

Movement To Have All Eastern Shipments Of Grain Routed Through Canadian Ports

"No blockade that cannot be overcome stands in the way of Canadian grain traffic through all-Canadian ports." Such was the conviction voiced at Halifax recently by Col. Earle C. Philney, chairman of the Halifax Harbor Commission.

Speaking at a dinner designed to secure co-operation in furtherance of a campaign to acquit all sections of Canada with "the fact that inland sections of this country will benefit to the same extent as Halifax," St. John (from such a movement), the chief commissioner called for a getting together of every business force in Halifax and the maritimes to make it an eventuality.

"The major problems involved are national, not local," he said, "but we, at present, are the plaintiffs and we must carry the case. The rest of Canada is sympathetic, but unless there is complete unity among ourselves, we cannot go to other sections of this Dominion and ask for co-operation."

The arguments that, were the maritime request for a lower grain rate over the National Transcontinental granted, United States lines would retaliate with a lowering of rates, and that the Canadian line would be forced to haul at a loss were, in Col. Philney's opinion, "groundless allegations" of official bias.

An unofficial gathering of officials, sponsored by W. H. Dennis, managing director of the Halifax Herald, brought together some 200 representatives of government, civic and business interests.

They heard Col. Philney, who has just returned from a western survey of grain traffic possibilities, instance difficulties overcome by Vancouver in building up grain traffic as an inspiration for Halifax. "They proved," he said, "that you must have business to secure a turn-around movement of ships, and that if we get the grain the ships will come."

Rediversion of a fair proportion of Canadian traffic to Canadian channels would benefit not only these ports, but inland sections, he said.

Contention that Canadian lines could not haul grain at the reduced rate profitably, he continued, was answered by their own statisticians, who had testified they could not estimate the cost of hauling any given commodity from one point to another. "Figures indicate," he added, "that the C.N.R. hauling grain to Halifax and St. John over the Transcontinental at the rate we ask for, can make more money than it can by hauling any commodity anywhere else in Canada."

"Are we to let deficits on the Transcontinental pile up because of non-use?" he asked. "Isn't it better if necessary to lose, and I don't think it is, to lose the same amount of money in operation, than doing nothing?"

Telegrams of endorsement of the movement for grain shipments through Canadian ports were read from M. E. Nicholas, Winnipeg Tribune; E. H. Macklin, Winnipeg Free Press; John M. Imrie, Edmonton Journal; J. H. Woods, former president of the Canadian Chamber of Commerce; J. D. McKenna, St. John Telegraph-Journal; and R. J. Cronin, Vancouver Star.

People Are Warned

A radio announcement states that a certain crooner will be heard from a certain network every evening at a certain hour. Very kind of the broadcast to issue that warning.

"Have you bathed here?" "Because me, certainly. I haven't got that far yet." Theatricals, Didsbury, Alberta.

W. N. U. 1120

New Breed Of Rabbit

Has Fur Color and Texture of Beaver Is Claim

A new breed of rabbit, with fur the color and texture of beaver has been developed after twelve years of scientific experiment. Dr. C. E. Friend, rabbit fancier, and organizer of the Rex Rabbit Breeders' Federation, Chicago, announced perfection of the breed prior to opening of the first display of the new offspring of the *Lepus Canadensis* family.

The rabbit, scientifically attributed to a mutation or a biological change in cells, reached its present development in this country after discovery 12 years ago in France.

Through application of the Mendelian law, Dr. Friend reported successful experiments have also been carried out in the development of rabbits bearing closely akin to ermine, seal and chinchilla.

Government Projects Manitoba Farm Plan

Unemployment Relief Measure Turned Down By Federal Authorities

Plans to place selected families on Manitoba farms as an unemployment relief measure, proposed by the provincial government, were turned down by the Federal Government. It was announced in a letter to the deputy minister of public works from Harry Bedford, director of Dominion relief at Ottawa.

The scheme was intended to establish families on farms on a self-supporting basis, with half the cost to be borne by the Dominion Government and the other half equally by the provincial government and the city of Winnipeg.

The policy officials do not carry the judgment of approval of federal authorities, the letter said.

"Be sure you're right then go ahead" may be good advice, but not always for pedestrians.

Shetland Sheep Wool Made Into Blankets

Imported Fleec Owned By London Men Yields Heavy Clip

The only Shetland sheep wool blankets ever made in Canada were made for Drs. Hugh and W. J. Stevenson, the wool being this year's clip from the herd owned by the Londoners at their Pond Mills stock farm.

These blankets are uncoloured, but retain the natural chocolate brown tone of the wool just as it grows on the backs of the fairly little island sheep. The texture of the blankets is luxuriously soft and fleecy.

This little known sheep were brought to Western Ontario from Shetland by Drs. Stevenson two years ago, and have proved both adaptable to the climate and profitable. The wool is remarkably long and lustrous and yields a fairly heavy clip. The sheep themselves, though a wild breed, have a homing sense that helps to bring them back to the fold and as mutation, they are excellent.

Saves Keeping Roads Open

Airplanes Carrying Supplies Weekly To Northern Relief Camps

Making their first trip December 7, R.C.A.F. aeroplanes being used this year to take supplies to relief work camps of the Federal Government at Prince Albert National Park, landed at Peace River, took on a load of 350 pounds, and then took off for Clearwater Lake camp set in the midst of the wilderness of pine and spruce near where boundary is being cut out by single goldseekers. Other camps are to be opened up, and from now on the trips will be made regularly once a week.

This is considered a simpler solution of the problem of supplying the camps with food than by attempting to keep roads open. Flight Lieutenant Carefoot, and Flight Sergeant Winnie, stationed at the R.C.A.F. base at Peace River, are piloting the two 'Lanes' being used.

One hundred barrels of apples to an acre is considered a possible crop from a full-grown orchard.

The common name of the celandine is "henbit."

Hardwoods That Are Native To Canada Have Never Been Properly Appreciated

Lumbering and pulpwood operations provide work and wages for thousands of laborers, offer a medium of investment in one of Canada's richest natural resources, and provide salaries for a large group of executive and technical employees. An economic crisis should focus attention on the natural resources of a country and induce a desire to utilize these natural resources to best advantage. The hardwood lumber industry of Canada has not been accorded the additional sustaining support which so many other industries have received.

Canada's native hardwoods, even in normal times, have never been sufficiently appreciated. Their properties, characteristics and adaptability for service have never become widely known. It has always been thought necessary to import certain woods for certain specific purposes. These imported hardwoods have been chiefly gumwood, hickory, mahogany, sycamore, yellow poplar, rosewood, oak, walnut and ash.

This importation is principally from the United States. Thus 122,673,000 ft. b.m. in 1928; 120,185,000 ft. b.m. in 1929; and 75,015,000 ft. b.m. in 1930 of hardwoods were imported from that country. In addition considerable quantities of hardwood flooring were also imported. Depression or no depression, some of this importation is certainly justified, as most of these species do not occur in Canada and accordingly will always be required for specific purposes. At the same time there are certain Canadian hardwoods whose characteristics adapt them admirably for identical uses. Interior trim, flooring, furniture, implements, machinery parts, shipbuilding, vehicles, etc., as these imported woods. In fact, it has been demonstrated that Canadian hardwoods are in many cases not only equal but superior to imported hardwoods.

It is not realized that many of our hardwood forests are going to waste. Good forestry practices require a tree

to be cut when it is mature, not after its life has passed. A tree cut at maturity yields the maximum in utility value. After maturity it starts to decline, becomes more subject to the inroads of decay, and finally as a diseased tree becomes a menace to the rest of the forest. In spite of the fact that our hardwood resources are of great potential value, hardwood logging operations are not being carried on at a rate fast enough to keep the forest in a healthy condition. Thus only 255,000,000 ft. b.m. of Canadian hardwoods were produced in 1928, and only 266,100,000 ft. b.m. and 192,823,000 ft. b.m. in 1929 and 1930 respectively. This represents a rate of cutting of about two per cent. of the total stand available; and yet scarcely there are reported into Canada, a land of immense forest resources, thousands of feet of competing lumber.

These foreign woods are competing species. Our native woods are not inferior in quality and adaptability for service. It is not a question of foreign woods not being suitable, but rather a question of our woods being just as suitable. American oak has acquired a reputation, and quite rightly so, as an outstanding hardwood floor. But there are no finer floors than those built of selected Canadian red birch. There has been a wide use of the lower grades of birch and maple flooring, but very little utilization of the selected grades. Since most birch and maple flooring is second or third grade, it is thought that these forests represent the ultimate both in appearance and in utility value.

Then there is the use of Gothic oak for the interior trim of churches. This oak is stained throughout by a patented preservative treatment, and is, compared to the ordinary untreated oak quite expensive. In spite of its cost this Gothic oak has already been used for the interior trim of Canadian churches. For a certain specific job oak might be the only suitable wood, but often it has not been known or else overlooked that a Canadian wood, stained and treated in a somewhat similar manner, is obtainable. This treated Canadian birch costs about half the price of Gothic oak, and in many cases is just as suitable provided it can be properly adapted to architectural detail.

Once properly established these native woods, principally birch, maple and elm, would soon rank with the commonly imported and supposedly superior woods. Ottawa Journal.

Too Safe Course

Colored Preacher Cried Text To Suit Emergency

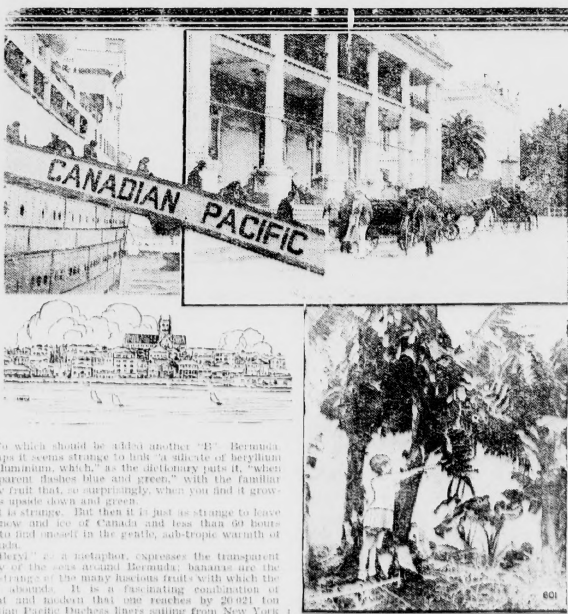

Having urgent reasons for leaving his home town in two days, a colored man located in a village not far distant. After a few months he entered the ministry. One night when he arose to preach he noticed, not far from the front, a man whom he immediately recognized as a resident of his home town. For a moment he was at a loss to know what to say, but escaped from the dilemma by saying: "Since coming to the pulpit I am moved to change my text. Next Sunday I will preach from the text announced for tonight. Tonight you will find my text in the 70th verse of the 162nd chapter of Isaiah, where it says:

"If you know me, say nothing, and I will see you later."

Conductor: "How old are you?" "Youth." "Not quite nine—this is my brother. Just three months younger than I am." Lastige Koller Zeitung, Cologne.

BERYL AND BANANAS

To which should be added another "B," Bermuda. Bermuda it seems strange to hile it abounds of beryl and aluminum, which, as the dictionary puts it, "when transparent flashes blue and green," with the familiar yellow fruit that so surprisingly, when you find it growing, is unmade down and green.

It is strange. But then it is just as strange to leave the snow and ice of Canada and less than 60 hours later to find oneself in the gently, subtropical warmth of Bermuda.

Beryl is a metaphor, expressing the transparent beauty of the seas around Bermuda; bananas are the least strange of the many luscious fruits with which the island abounds. It is a fascinating combination of ancient and modern that one reaches by 20,000 ton Canadian Pacific Duchess liners sailing from New York every Wednesday and Saturday. No motors are allowed in the island—yet there is an ultra-modern Diesel-electric railway. A "cow's breakfast" hat, a sketch of a shirt, and non-slipper pants held up by a one-strap gashly rubber laughing girdle or costume, yet 10 minutes from where the "Duchess of York" and "Duchess of Athol" dock is the up-to-date Hamilton Hotel, Bermuda's largest building. Only a 20 minute walk separates ship and Princess Hotel, while short drives or launch trips reach many other delightful spots and places.

Passengers in one-way liners are making

Bermuda their winter playground, more so since the inauguration last year of steamship service by trans-Atlantic liners.

(A) Stepping from ship to street.

(B) "Have a banana?" A bright-eyed chameleon winked a bright eye and dodged when the young lady approached the tree, otherwise it was just like picking an apple in the orchard back home.

(C) Ancient and modern! The splendid Hamilton Hotel is in effective contrast with the horse-drawn carriage.

Two Reasons for Worry.

"I wonder why folks worry? There are only two reasons for worry: either you are successful, or you are not successful. If you are successful, there is nothing to worry about; if you are not successful, there are only two things to worry about.

"Your health is either good, or you're sick; if your health is good, there is nothing to worry about; if you are sick, there are only two things to worry about: you are either going to get well, or you are going to die; if you are going to get well, there is nothing to worry about; if you are going to die, there are only two things to worry about: you are either going to heaven, or you are not going to heaven. If you are going to heaven, there is nothing to worry about; if you are going to the other place, you'll be so busy shaking hands with old friends, you won't have time to worry—so why worry?"

—Exchange

Farm Broadcasts.

Here is an announcement that will be of great interest to all westerners. A series of 15-minute talks, dealing with the various varieties of wheat, the preparation of seed grain and similar matters, will be given over the following stations, under the auspices of the Winnipeg Grain Exchange:

C.F.C.N., Calgary.

C.J.C.A., Edmonton.

The Exchange, realising some of the important and difficult problems facing the grain farmers of the prairie provinces, and appreciating that the proper solution for these problems is as important to themselves as to the farmers, have arranged for these discussions in the hope that they may be of timely assistance to many of their good friends.

The Exchange thinks that you will have a real treat in store, as they have been most fortunate in obtaining the services of Professor A. T. Elders, Dr. G. P. McRostie, and Dr. Wm. Geddes, members of the Faculty of the Manitoba Agricultural College, and all of them recognized authorities on the subjects to be covered. The first talk will take place on Friday, January 22nd commencing at 12:50 Mountain Standard Time.

List of Subjects:

- Fri., Jan. 22: "Wheat Varieties" by Prof. A. T. Elders.
- Fri., Jan. 25: "Coarse Grain Varieties" by Prof. A. T. Elders.
- Fri., Feb. 5: "What Constitutes Quality in Wheat" by Dr. Wm. Geddes.
- Fri., Feb. 12: "Milling and Baking Quality of Common Red Spring Wheat" (including Garnet) by Dr. Wm. Geddes.
- Fri., Feb. 19: "Preparing Seed Grain" by Prof. A. T. Elders.
- Fri., Feb. 26: "Soil-drifting, and its Prevention" by Dr. G. P. McRostie.
- Fri., Mar. 4: "The Place of Fertilizers in our Present Farming Practices" by Dr. G. P. McRostie.

LOCAL & GENERAL

Mrs. J. W. Phillipson entertained the Business Girls Club at two tables of bridge on Tuesday night.

Mr. Bob Kershaw and Miss M. White were visitors at Mrs. J. McDougall's on Sunday.

Mr. H. Morgan left on Sunday for Moose Jaw to attend a post-master's conference.

Mr. Archie Boyce, of Grand Prairie, is visiting with Mr. and Mrs. J. A. McGhee.

Mr. Bill McFarquhar spent the week-end with his parents at Calgary.

Miss Esther Campbell was a week-end visitor at the home of Mr. and Mrs. A. G. Studer.

Mrs. Chas. Brown went to Calgary today to attend the old-timers' banquet.

Mr. Jim Phillipson and Mr. and Mrs. Chambers went to Calgary Tuesday to see the Abbey Players from Dublin, Ireland.

Messrs Cecil Adhead, E.J. Ford and Percy Lunt were in Calgary on Monday attending a General Motors conference.

The subject of the sermon at Zion Evangelical Church, Sunday morning, January 24th at 10:30 o'clock will be: "The Need of Sacrifice," and in the evening at 7:30, "Christ as Healer."

Price lists have been issued for the Alberta Provincial Seed Fair, to be held in Calgary from February 9th to February 12th. Copies can be obtained from the Department of Agriculture, Edmonton. Entries must be in by February 2nd.

If you have anything you don't need, we can sell it for you. Bring in your surplus goods. Someone is continually calling for the things you've got.—W. H. Chamberlin's Secondhand Store.

Weekly Sermonette.

"We cannot all play the same
instrument, but we can be in the
same key."

Weekly Joke.

The Scot, goat of many anecdotes
occasionally turns the tables:

At an English political meeting
one of the candidates patriotically
cried: "I was born an Englishman,
I have lived an Englishman, I
hope I shall die an Englishman."
From the back of the hall in an
unmistakable accent came the question,
"Mou, hae ye me aullection?"

Pays Out \$6,762,813

On Wheat Bonus

Under terms of the wheat bonus
authorized at the last session of
parliament at five cents a bushel, a
total of \$6,762,813 has been paid
out to the end of the calendar year.

This indicates that some 135-
000,000 bushels of wheat have been
bonused, or apparently half last
year's crop in the prairies.

Shot Seven Deer;

Is Heavily Fined

Said to have slaughtered seven
does, two fawn and one buck, in the
Bottrell district during the past three
months, Perry Gano, of that district
has been heavily fined by K. O. Reid,
justice-of-the-peace, according to a
report received at provincial police
headquarters recently.

Search of Gano's premises by
Constable H. T. Elvin, of the Calgary
detachment, A.P.P., resulted in the
discovery of four pounds of venison.
A short distance from the house,
beside Dog Pound Creek, Constable
Elvin found seven deerskins hidden
in the trees, one bundle containing
five hides, and another two large
hides.

Gano was found guilty of having
killed seven deer, and was fined
\$15.00 for each deer, and the costs
of the court. On a charge of having
traded venison for three loads of
greenfeed to B. Vincent, he was
fined \$10.00 and costs.

Guy Gano, a resident of the same
district, was fined \$20.00 and costs
upon pleading guilty to having
killed a female deer.

Paid Up?

Influence Of Environment.

The Left Hand Columnist of the

Leithbridge Herald recalls this one:
When R.C.M.P. Sergeant Smith
was stationed at Twin Lakes, (near
Cardston) his wife, a patient in Galt
Hospital, presented him with twins.
He was discussing the matter rather
gloomily with the matron of the
hospital. "Well, what did you
expect?" asked the matron. "Isn't
your address Twin Lakes." Just as
she finished speaking, a man sitting
waiting in a chair nearby, fell from
it in a dead faint. "Who is he?"
enquired the matron of the nurse
who rushed to the rescue. "I don't
know his name," said the nurse,
"but he came to see how his wife is
getting along. He is from Seven
Persons."

Moore's Almanac Predicts.

Famous Old Authority Sees World
Prosperity Renewed.

The "renewal of world prosperity
and a wave of famine, disease and
pestilence in Russia within the next
two years" are predicted in the
"Old Moore Almanac" for 1932,
just issued in London.

The famous almanac, which
correctly forecast the formation of a
British coalition government in its
1931 edition, predicts the following
events:

"More settled conditions in India
and the downfall of some of the
Nationalist leaders (presumably
some such as Mahatma Gandhi)."

"The illness and death of a
member of British Royalty in April."

"A grave naval disaster at the
end of May."

"An outbreak of hostilities early
next summer."

"A British government crisis in
mid-July."

"Important constitutional changes
and reduction of taxation. Expan-

sion of British exports."

Calgary Power Company Limited

:~: Announce :~:

New Consumer and Dealer Policy

The Calgary Power Company Limited believes that
it has a definite responsibility to its consumers in assisting to pro-
mote and develop the use of electrical appliances which will add to
the comfort, convenience and profit of its customers.

Towards this end the Company have developed a
Merchandising and Load Building Policy which it believes will be
satisfactory to the consumers and to the electrical appliance dealers.
Under this policy the Company proposes to assist in the sale of
appliances whenever possible through the local dealers, except in the
case of electric ranges which it believes can be handled and financed
by the Company more advantageously than by the dealer.

The Company's Local Managers will gladly co-oper-
ate with the local dealers in all matters pertaining to the use of
electrical appliances. The advice and service of its Engineering and
Technical Departments will always be available.

The Company believes that by co-operation with its
consumers and the dealers, advantage can be taken of the existing
opportunity for the use of electrical appliances to the mutual benefit
of all concerned, and any enquiries will be given prompt and cour-
teous attention by the local managers and all other members of this
organization.

Local Manager: W. E. Ross, Olds

WORLD HAPPENINGS
BRIEFLY TOLD

The Soviet Government is preparing to discuss the famous Communist system of rationing food and clothes.

Britain will make no binding trade agreements until the outcome of the Imperial Conference is known.

Central heating is proposed for Churchill, Manitoba's new seaport on Hudson Bay.

Captain Tikhon N. Agapov, former commander of the Russian Imperial Navy, died suddenly at Halifax.

H. H. Winston Churchill, noted British statesman, is on a lecture tour in the United States.

Improved train facilities are greatly needed in Peace River country. E. H. Roth, delegate to the Alberta pool meeting, declared.

Population of Russia in 1950, the Academy of Sciences, Moscow, estimates will be 210,000,000.

The peal of the bells of St. Peter's has been heard for the first time in many years in a broadcast from the Vatican radio station.

Miss Ethel Catherine, Saskatchewan's Olympic champion, has taken up residence in San Francisco where she will remain until after the 1932 Olympic games.

Unless a solution is found for the present problem in the rubber industry of the province, Quebec faces the possibility of the abandonment of 40,000 farms.

The Department of Public Works, Ottawa, has approved of a combined highway and railway bridge which the Fraser River Bridge Company propose building at Fort Mann, British Columbia.

Means Valuable Saving

Canada's Energy Requirements Met By Water-Power Industry

The water-power industry in Canada supplies nearly the entire energy requirements of the country, exclusive of that utilized for steam railways, automobiles, etc., and as a further measure of its importance it may be mentioned that the capital investment involved in rapidly approaching a billion and a half dollars. The records of the Dominion Water Power and Hydropower Bureau, Department of the Interior, show that during 1929 upwards of twenty billion kilowatt hours of energy were produced which, using the figure for the average coal consumption per kilowatt produced in the public utility plants in the United States, indicates an actual saving of 17,000,000 tons of coal in 1929. When we consider that for a stretch of upwards of 2,000 miles across Canada no coal mines exist the value of this saving becomes apparent.

Special Soviet Stamp

Carries Design Of Four Riders In Mud Race

On the occasion of the tenth anniversary of the organization of the Red army's first regular cavalry detachment a special stamp which bears a design strikingly similar to the traditional perforations of the four instances of the Apocalypse was issued by the Soviet Government. Four riders are shown in a mud race across the face of the stamp, on which is roughly outlined a map of the European section of the Soviet Union. The first of the horsemen pictured carries a large red banner, his three companions, each bearing far forward on his horse, carry their weapons above their heads.

"Your daughter is learning to sing? Is she a success?"
Yes. Already two tenets have been moved." *Langste Kolner Zeitung, Cologne.*

North Country Brought
Close To Civilization

Remote Settlements Served By Chain Of Wireless Stations

Ten years ago communication between points within the North West Territories and the world at large involved a delay of weeks during the summer season and of months during the winter. Seven years ago the Department of the Interior, through its North West Territories and Yukon Branch, took the first step toward bringing the north country closer to civilization. With Edmonton as a base a chain of wireless stations was built which served Simpson on the Mackenzie River as well as Dawson and Mayo in the Yukon Territory. Since that time the northern wireless system has been extended until today Fort Smith, Resolution, Simpson, Norman, Akavik, and Herschel Island on the west coast of the Arctic are equipped with wireless offices, which handle ordinary commercial messages to and from all parts of the world. In addition some of the more northerly offices are equipped with broadcasting plants by means of which they are enabled to relay commercial messages and daily news bulletins to the more remote settlements.

Sold Member's Hat

Vincent Carter, member of the United States House of Representatives from Wyoming, entered a shop where many hats and coats were displayed to a big feminine crowd. He respectfully put down his hat and walked around. In less than no time the saleswoman had sold the hat for the benefit of a hospital in Ketchikan, Alaska.

Grain Show Held
At Prince Albert

Fine Samples Of Wheat and Oats Were Exhibited

With a view to producing grain of sufficiently high quality to exhibit at the World's Grain Show at Regina, Sask., in 1933, the Prince Albert Board of Trade staged a grain show recently.

The samples exhibited were produced from seed sent out by the board to the most successful growers of the district. There were 15 lots of forward wheat sent out in five-bushel lots, and ten lots of Marvellous oats of five bushels each.

The exhibit showed fine results in both classes, the winners being chosen for plumpness, soundness, colour, freedom from disease and from other varieties of grain.

Professor Manley Champlain, of the Field Husbandry Department, Saskatchewan University, was the judge. The yield of the grain on exhibit was: Wheat, 49 to 50 bushels per acre; oats, 90 to 100 bushels per acre. There were 20 exhibitors in all. First, second and third prizes were awarded in both classes and comprised three, two and one sacks of the best grade of flour produced by the Waskesiu Milling Company.

Knew His Horse

An old gentleman who had just made a horse up his mind that he must buy a horse, his old mare having become a little uncertain on foot, met a dealer. "John," he said, "I'm thinking of buying a horse. Do you know of any one who's got a nice animal to sell?" The dealer considered for a moment, and then replied, "I think Bill Davis has, sir, or he will have in a day or two. I sold him one yesterday!"

Britain Needs Wood

It Imports Stopped Many Industries Would Be Paralyzed

"Nearly all our industries would be paralyzed if, for some unforeseen reason, it became impossible to send wood into Great Britain. We import millions of tons every year," says a writer in *Ti-Bits*. "To cover our needs."

Every trade insists on some particular kind of wood for its purpose. Lancashire weavers want boxwood for their shuttles. When the supplies from Russia suddenly ceased, a few years ago, men were sent all over the world to find a wood to replace it that would satisfy the weavers. Eventually, in South Africa, the persimmon wood was found, and shuttles are now made of this.

Cigar manufacturers and boat builders give orders for large supplies of American cedar. The former use it for making cigar boxes, and it is used for boat boards. Pencil manufacturers also buy large quantities.

Another American wood which is in demand is hickory. Every golfer uses it, for shafts of golf clubs are made from hickory. Bagpipe makers are very particular. They will only use blackheart wood, and it comes all the way from tropical Asia and Africa. Makers of fishing-rods use greenheart, grown in South America and British Guiana. But large quantities of this wood get no farther than our ports. It is used to stack round piles of other goods lying in the docks to protect it from the shipworm. This insect cannot eat its way through greenheart.

One of the rarest woods is lignum-vitae, from the West Indies, which has limited uses. It is exceptional as being sold by weight instead of measurement. Owing to the arrangement of the successive layers of its fibres, the wood cannot be split. It is used for the manufacture of rulers and ships' pulleys.

Financial Post Warns

Against Land Shark

Advises People Who Borrow To Deal With Reputable Firm

The Financial Post is to be commended for throwing the limelight of publicity on the "short past due loan racket," as a writer picturesquely names it. According to that paper the particular form of this "racket" is in addition to the charging anything from 100 to 200 per cent. interest on the loan is to make the loan for a very short period, say three or four months, which necessitates high monthly repayment charges. This makes the situation very hard for the borrower and ensures "a steady flow of used cars" into the lot next door which the Financial Post alleges is maintained by these loan companies and operated under different names. Those who find it necessary to raise money for this purpose would do well to take this warning and go to a reputable source to raise the necessary collateral.

Toronto May Flood Loan

Would Follow Plan Of Recent Dominion Service Loan

Following the recent successful flotation of the Dominion Service Loan, it was stated that the next municipal bond issue in Toronto may be made on the same internal basis, rather than payable in United States money as well as Canadian money. Civic Finance Commissioner George Wilson said he favoured the idea of Toronto doing its financing internally or in England "when the time arrives and it is propitious to do so." The city, however, is not contemplating going on the market in the immediate future, it was said.

Ship Sea Water To London

A shipment of one and one-half tons of sea water contained in a large number of glass bottles, has travelled 7,418 miles from Calicut, Peru, to Liverpool. The water was taken from the Humboldt current, which runs along the western seaboard of South America. It has been sent to London for chemical analysis to determine the properties of the Humboldt current.

Greece is expected to take 12 million bushels of Canadian wheat this year.

Many Demands
On Service

Forest Products Laboratories Of Canada Assist Wood-Using Industries

The Forest Products Laboratories of the Forest Service, Department of the Interior, extend to the wood-using industries of Canada, including the pulp and paper industry, advice and assistance in the various problems which arise in converting the standing tree into the finished commercial product.

These laboratories were first organized and established in Montreal in 1913. On account of the rapid development of the pulp and paper industry and the increase in the uses to which wood is being put, demands on the services of the Laboratories have correspondingly increased. Its work is carried out in three different centres, viz., Ottawa, Montreal, and Vancouver.

The importance of Pacific Coast problems, as well as the great distance from the Montreal laboratories, made it necessary to open in 1918 a branch laboratory in Vancouver, and since its establishment the work of this laboratory has increased steadily. It is excellently accommodated in buildings provided by the province on the grounds of the University of British Columbia in Vancouver.

The research program of the Laboratories in Montreal was for several years seriously handicapped on account of limited and unreliable accommodation. Besides the pulp and paper industry had so many technical problems requiring attention that it offered to provide the pulp and paper division of the laboratories with better accommodation for its work. The old buildings were therefore demolished in 1927 to make way for the pulp and paper research institute and the main laboratories were moved to Ottawa, where excellent facilities were available.

The main laboratories at Ottawa are operated under eight divisions as follows: Wood Preservation, Timber Mechanics, Lumber Seasoning, Timber Pathology, Timber Physics, Wood Utilization, Markets and Esthetics, and Office Administration.

Puts Fortune In Stamps

London Dealer Paid Twenty-Five Thousand Pounds For Collection

A London dealer has just put his entire fortune into one block of foreign stamps, covering the whole issue of Abyssinian stamps that preceded the new designs of which the Emperor Ras Tafari has approved. The catalogue value of the purchase exceeds twenty-five thousand pounds, and the collection includes some remarkable series, which reflect the history of Abyssinia since its admission into the postal union.

There are early stamps incorporating the symbolical Lion of Judah, others marking the memorable coronation of Ras Tafari and three sets which bear the official surcharge of the air mail.

Charlady Fashion

Paris has gone to the chandley for its latest fashion. Since 1900 she has worn a black knitted "pelote," a small cape which covers the shoulders. They are now vogue with all costumes and on occasions, some will have fur to match, others velvet and satin.

Building permits issued in Belgium are greater than a year ago.

London has a night lawn tennis craze.

"I have said 'Good Health' to you six times, and you have taken no notice. Must I get drunk in the middle of the day just to teach you manners?" *Stiegendorfer Blätter, Munich.*

THE HOUSE OF DREAMS-COME-TRUE

—BY—

MARGARET FIEDLER

Author of
"The Splendid Fool," "The Hermit
of Far East,"
Hodder & Stoughton, Ltd., London.

CHAPTER VIII.—Continued.

The idea that she might be an unwelcome guest at Staple filled Jean with lively consternation, and by the time she had accomplished the necessary change of train at Exeter, and found herself being trundled along on the leisurely branch line which conducted her to her ultimate destination, she had succeeded in working herself up into a condition that almost verged upon panic.

"Combe Ex-ter! Combe Ex-ter!" The sing-song intonation of a depressed-looking porter, first rising from a low note to a higher, then descending in contrary motion abruptly from high to low, was punctuated by the sharper, clipped pronunciation of the stationmaster as he bawled up the length of the platform declaiming: "Meavie! Meavie! Meavie!" with a maddeningly insistent repetition that reminded one of a cuckoo in June.

Apparently both stationmaster and porter were too much absorbed in the frenzied strophe and antistrophe effect they were producing to observe that any passenger, handicapped by luggage, contemplated descending from the train—unexpected arrivals were of rare occurrence at Combe Ex-ter—and Jean therefore hastened to transfer herself and her hand-luggage to the platform unassisted. A minute later the train ambled on its way again, leaving the station master and the depressed porter grouped in astonished admiration before the numerous trunks and suitcases, labelled "Peterson," which the luggage van of the departing train had vomited forth.

To the lucid mind, such an unwelcome accumulation argued a passenger of quite superlative importance, and with one accord the combined glances of the station staff radiated the diminutive platform, to discover Jean standing somewhat forlornly in the middle of it, surrounded by the smaller fry of her luggage. The stationmaster hurried forward immediately to do the honours, and Jean addressed him eagerly.

"I want a fag-cab!"—correcting herself hastily—"to take me to Staple Manor."

The man shook his head. "There are no cabs here, miss," he informed her regretfully. "Anyone that wants to be met orders Wonnacott's waggonette in advance." Then, seeing Jean's face lengthen, he continued hastily: "But if they're expecting you at Staple, miss, they'll be sure to send one of the cars to meet you. There!"—triumphantly, as the chug-chug of an approaching motor came to them clearly on the

crip, cold-air—"that'll be it, for certain."

Followed the sound of a car backing to a standstill in the road outside the station, and almost immediately a masculine figure appeared advancing rapidly from the lower end of the platform.

Even through the dusk of the winter's afternoon Jean was struck by something curiously familiar in the man's easy, swinging stride. A surge of memories came flooding over her, and she felt her breath catch in her throat at the sudden possibility which flashed into her mind. For an instant she was in doubt—the thing seemed so amazingly improbable. Then, touching his hat, the station-master moved respectfully aside, and she found herself face to face with the unknown Englishman from Mont-tavan.

She gazed at him speechlessly, and for a moment he, too, seemed taken aback. His eyes met hers in a startled, leaping glance of recognition and something more, something that set her pulses racing unsteadily.

"Little comrade!" She could have sworn the words escaped him. Then, almost in the same instant, she saw the old, rather very gravity replace the sudden fire that had blazed up in the man's eyes, quenching its light.

"So you are Miss Peterson?"

There was no pleasure in welcome in his tones; rather, an undercurrent of ironical vexation as though Fate had played some screwy trick upon him.

"Yes," The brief unmistakable came heavily in reply; she hardly knew how to answer him, how to meet his mood. Then, hastily calling up her reserves she went on lightly: "You don't seem very pleased to see me. Shall I go away again?"

His mouth relaxed into a grim smile.

"This isn't Clapham Junction," he answered tersely. "There won't be a train till ten o'clock tonight."

A glint of humour danced in Jean's eyes.

"In that case," she returned gravely, "what do you advise?"

"I don't advise," he replied promptly. "I apologise. Please forgive me."

Such an ungracious reception Miss Peterson, but you must acknowledge it was something in the nature of a surprise to find that you were—"you?" Jean laughed.

"It's given you an unfair advantage, too," she replied. "I still haven't penetrated your incognito— but I suppose you are Mr. Brennan?"

"No, Nick Brennan's my half-brother. I'm Elsie Tomarlin, and, as my mother was unable to meet you herself, I came instead. Shall we go? I'll give the stationmaster instructions about your luggage."

So the unknown Englishman of Mont-tavan was the man of whom the two women at the neighboring lunch table in the hotel had been gossiping—the central figure of that most curious, though less thought-provoking, scene. Now, the origin of some of those unbidden comments he had let fall when they were together in the mountains.

In the silence she followed him out of the little wayside station to where a big head-lamps of a stationary car shed a blaze of light on the roadway, and presently they were slipping smoothly along between the high hedges which flanked the road on either hand.

CHAPTER IX.

The Master of Staple

It was too dark to distinguish details as the big car sped along, but Jean found herself yielding instinctively to the still, mysterious charm of the country-side at even.

A slender young man drifted like a curled petal in the dusky blue of the calm sky, his pale light faintly outlined, the tops of the trees and the dim, gracious curves of distant hills, and touching the mist that filled the valleys to a nebulous, pearly glimmer, so that to Jean's eager eyes the foot of the hills seemed laved by some phantom sea of foam.

She felt no inclination to talk. The smooth rhythm of the pulsing car, the chill sweetness of the evening air against her face, the shadowy, half-revealed landscape all combined to lull her into a mood of tranquil appreciation, and restful after the fatigue of her journey and the shock of her unexpected meeting with the Englishman from Mont-tavan. She knew that later she would have to

take up the thread of things again, adjust her mind to the day's surprising developments, but just for the moment she was content to let everything else slide and simply enjoy this first exquisite revelation of twilight Devon.

For a long time they drove in silence, Tomarlin seeming no more disposed to talk than she herself.

Presently, however, he showed the car down and, half-turning in his seat, addressed her abruptly.

"This is somewhat in the nature of an anti-climax," he remarked, the comment quite evidently springing from the thoughts which had been absorbing him.

He spoke curtly, as though he resented the march of events. Jean felt herself jolted suddenly out of the placid reverie into which she had fallen.

"Yes. It is odd we should meet again so soon," she assented hurriedly.

"The silence has been broken—after all! You must be sure, Miss Peterson, it was by no will of mine."

Jean smiled under cover of the darkness.

"You're not very complimentary," she returned. "I'm sorry our meeting seems to afford you so much satisfaction." There was a ripple of laughter in her tones.

"It's not that!" As he spoke, he slackened speed until the car was barely moving. "You know it's not that," he continued, his voice tense. "But, all the same, I'm going to ask you to forget Mont-tavan."

(To Be Continued.)

Used His Prerogative

Judge ruled Man Can Stretch His Imagination When Courting

Superior Judge Thomas Gould sat in court at Los Angeles, where Lotus Phillips entered a plea for the annulment of her marriage to Stanley Phillips. The ground was that when Stanley had come to do his courting he had made promises of a bright future. He was a man of some importance according to his own statements.

After the marriage Lotus found that her husband was a very ordinary person, possessed of little cash, and he failed rather diametrically to live up to the picture of opulence he had painted in former days.

But the judge held that the lady in the case had no grounds to secure an undoing of the marriage tie. He even went so far as to state plainly that men had for years been painting rosy pictures of what they would do if the little lady would only say yes. His worship said there was no written law which held in check the language used in courting, and a man's tongue could wiggle as much as he pleased to make it wiggle in his efforts to win the object of his affection.

Of course, by the same token, there is no law which makes it necessary for the lady to believe what the ardent avain is saying. She can listen to his pleading, and then say a very decided "NO."

Cheapest Of All Oils. Considering the qualities of Dr. Thomas' Electric Oil it is the cheapest of all preparations offered to the public. It is to be found in every drug store in Canada from coast to coast and all country merchants keep it for sale. So, being easily procurable and extremely moderate in price, no one should be without a bottle of it.

An Aid To Efficiency

London Physician Says Headache Makes Women Work Better
Headaches increases the efficiency of the average woman worker.

This startling theory is advanced by a Harley Street physician who has conducted a lengthy survey of the health of 500 women piece-workers. For six months the women were asked to record daily on a chart the state of their health.

These were compared from day to day with the output of the women, and it was found that most work was done on the days when a woman complained of a headache.

Consequently, in their work to forget the pain is the explanation offered.

Figured To A Minute

Mrs. Hempke is going away for the first time of her married life. Her husband: "Do you know what time my train goes tomorrow?" Hempke: "Yes, dear, from now it is 10 hours 37 minutes."

Primitive Motor Cars

England Had the First Self-Propelled Road Vehicle

Austria recently celebrated the anniversary of Siegfried Marcus, whom Central Europeans claim as the original inventor of the motor-car. His first car, which appeared in 1844, says an item in *Amers*, was driven by oil and an improved edition of it came before the public in 1875. This Marcus' car was not the first self-propelling road vehicle. A British inventor, Richard Trevithick, ran a steam coach on the London streets 180 years ago, and for a long time the steam road vehicle was a very real competitor of the railways. The use of oil in Marcus' car, however, makes it a real landmark in the history of mechanical road transport.

Plans To Construct Perfect Parachute

Will Be Fool-Proof Says Former "Boy Aeronaut"

Nationally acclaimed as "Prince Leo, the Boy Aeronaut" in the gay '80's, Leo Stevens hopes to clinch his career as an aviator, with the construction of a parachute lighter than any now in use and "fool proof" in the sense that it never will fail to open.

Birdies opening unflinchingly, through air pressure, even if the aviator's hands should "freeze" so that he is unable to yank the controlling cord, Stevens' new parachute, he says, will be under control at all times. It will float, too, or bring the flier to the surface should he fall into a lake or stream, or the sea.

THE RHYMING OPTIMIST

By Aline Michaels

NO WORDS

When I was deep in sorrow
To you I came for aid,
From you I sought to borrow
Strength not to be afraid;
And all my need was spoken
And all my want revealed,
While silence was unbroken,
In silence I was healed.

When I was thrilled with rapture
As joys unlearned I gained,
With goals life let me capture
And dearest hopes attained,
To you I journeyed, sharing
My gladness, from far lands,
To you I hastened, bearing
My bliss in open hands.

Yet by no words was speeded
The secrets I impart,
No words from me are needed
To reach your loving heart!

Death Of Inventor

Passing Of Man Who Gave Ice Cream Comes To The World

Charles E. Menches, who invented the ice cream cone, died at his home in Akron, Ohio, recently. He was 72 years old.

During his career as an actor, circus performer and hotel owner, Mr. Menches was credited with many inventions, but none of them struck the public fancy as did his edible ice cream container. He also claimed the invention of the "Hamburg" sandwich, and of the game of throwing baseballs at a human face.

Bather's Rich and Ringworm are relieved by the use of Daugh's Egyptian Liniment, quick, certain results. Relieves the most obstinate cases.

Bad Deal All Around

Judge: "You, a respectable young man, stole a car. In consequence you have lost your post, and brought trouble and sorrow to your parents."

Accused: "Yes, and it was too tight into the bargain."

VICKS
VAPORUB
OVER FAMILIAR JARS USED YEARLY

Little Helps For This Week

"Let me depart, that I may go to mine own country."—1 Kings xi. 21.

For strangers into life we come, And dying is but going home.

How can a great soul be happy here? Those who have been amid mountains, and are condemned to live on plains, die of an incurable nostalgia. It is because we have issued from above that we sigh for it, and that the remedy is to use a reminiscence of our home—a range des vaches to the exiled Swiss. An infinite love supposes an infinite object. If all the forests were pleasure-parks, and all the hills were fortunate isles, and all the fields were oysian, and all eyes were full of joy, oh! then—but no; then the Infinite Being must have assured us that such felicity would be perpetual. But now that so many houses are houses of mourning, so many fields are fields of battle, so many faces are pale, so many eyes are dulled with tears and closed,—when things are thus, how can the tomb be the end of all?—Jean Paul Richter.

Runs "Walking-Stick" Farm

Kentish Villager Plants Seedling and Trains It As Assembled

Bob Body, the "Walking-Stick Man," who lives in Snodland, a village in Kent, is the greatest authority on the craft in the world. He does not rely on machinery for his sticks, but on skilful training. When he receives an order, he plants an ash seedling, and the finished stick is exactly as it has grown, with the exception that a ferrule has been fitted. Each stick has Mr. Body's personal attention. He watches its growth, eliminates its weaknesses, and carefully strengthens it. A stick for a millionaire grows next to a stick for a Scottish shepherd. Mr. Body has grown walking-sticks for sixty years. He lives in a caravan on his farm. He has his queer customers. One very heavy stick with a special knob on the top is being prepared for an old lady who lives alone and is afraid of burglars.

Persian Balm—the unrivalled toilet requisite. Essential to every dainty woman. Imparts a rare charm and beauty to the complexion. Softens and beautifies the skin. Makes hands supple and smooth. Refreshes. Relieves roughness. Ideal for true feminine distinction. Delicately fragrant. Swiftly absorbed into the tissues, leaving no stickiness. Persian Balm invariably creates a subtle elegance and charm.

Source Of Grain Rust

Western Canada Plague Traced To Raspberry Bushes In Mississippi Valley

Responsibility for grain rust in western Canada was traced to raspberry bushes in the upper Mississippi Valley and in southern Texas by E. Petersen, of the Dominion rust laboratory, addressing the Canadian Society of Agriculturists at Winnipeg. The Mississippi Valley, he says, was the chief source of local rust epidemics, but spores of wheat stem rust of winter in Texas.

Of 28 known varieties of rust that he added, nine were to be found in western Canada, and no oat variety was resistant to them all.

Palpitation of the Heart Could Hardly Get Around

Min. Charles Starnes, R. L. E. Fulton, Ont., writes:—"I was troubled with palpitation of the heart; couldn't sleep day or night, and was so weak I couldn't get around."

After taking Milburn's Heart and Nerve Pills I was greatly relieved of these attacks.

My mother also has great faith in them and finds no other medicine can help her so much for heart trouble.

I can assure you that Milburn's Heart and Nerve Pills are a wonderful bulwark."

Try Lydia E. Pinkham's Vegetable Compound

Had to break the Date
Again, I, these monthly pains Lydia E. Pinkham's Vegetable Compound relieved these troubles and I can say try it before you break another date.

CHRISTMAS DINNERS ON THE HOOF

Part of the 75 head of prize beef cattle, stated to have been the finest ever exhibited at the Royal Winter Fair, Toronto, recently, and purchased by the Royal York Hotel for the Christmas and New Year's festivities. They include the first prize carload of Aberdeen Angus steers

of the McIntyre Ranching Company, Ltd., of Leithbridge; the second prize carload of Aberdeen Angus steers bred at the Canadian Pacific Railway's central farm at Coldville, Alta.; the fourth prize carload of shorthorn steers from the Olds School of Agriculture, Alberta; and the fifth prize car-

load of Aberdeen Angus steers, raised by George Tait, of Warren, Manitoba.

The Royal York also purchased the Grand Champion Wether, a southdown, exhibited at the Fair by Colonel Robert McLean, of London, Ont., as a prize method of lionizing the wether.

Mountain View Notes

Mrs. J. Bussey, of Calgary was a visitor here Saturday last.

Miss M. Hill has been holidaying in Calgary.

The monthly meeting of Mountain View W.I. will be held on Thursday at 2 p.m. in Community Hall.

The whist drive and dance to be given under the auspices of the W.I. will take place on Friday, Jan. 22nd.

Mr. F. Dixon, of Calgary was a visitor to the district on Sunday while en route to Edmonton.

Jack Frost has been very severe this last week and nipped the noses, ears and fingers of several brave children who faced the winter blasts in order to attend school. One boy, riding three miles, arrived at school with a frozen finger which was quickly attended to by the teacher. This did not daunt the lad's courage, as he was on deck the following day, occupying his accustomed place. These children deserve the greatest praise, also their parents for equipping them suitably to go out.

Melvin Notes

Mr. and Mrs. Chandler spent Sunday at the Whiteside home.

The Go-Getters will hold a dance on Feb. 5th. Don't forget it is a leap year dance half the night.

Banold and Glen Johnston attended the Gale auction sale at Sunnyslope last week.

Mr. and Mrs. A. Esler, of town, spent Sunday with the A. Krebs family.

Westerdale and Melvin school-boys played hockey at Westerdale on Saturday, Melvin winning.

Westerdale beat Harnattan in the hockey game played at Harnattan on Saturday.

Those who motored to Ennerdale on Sunday to see the hockey game against Westerdale reported a good game. Ennerdale won out.

A number of young people went tobogganing near the Dog Pound last week. One toboggan broke and Miss Gladys Johnston had the misfortune to be badly hurt. We hope to see her around again soon.

Mr. Jim Johnston returned home from Three Hills on Saturday after spending some time with his sister. Mr. Vetter returned from California and reports that his mother is very little improved, we are sorry to hear.

The Go-Getters held their annual meeting on Saturday night, with a good attendance. Officers elected were: President, Mrs. A. Krebs; vice-president, Miss M. Fisher; secretary, G. A. Young; sports, Rolf Young; and E. Krebs; judge, committee, Mrs. C. Young; and Mrs. G. A. Young; advertising, Mrs. C. Youngs. The club meets every Saturday night and everybody is welcome.

Burnside Notes.

Dr. Bouck, of Calgary and Dr. Evans, of Didsbury, operated on Mr. Fred Metz for appendicitis on Tuesday of this week. We are glad to hear that he is doing fine.

Mr. Noah Eckel spent Thursday and Friday last week at the Crossfield hospital with the rink from Didsbury, which took first prize there.

Lone Pine W.I. are preparing for a concert in Lone Pine Hall, March 17th. Keep the date in mind, as the program will be extra good and will be followed by a "Country Store Dance."

Mr. A. E. Thompson, Senr. left on Tuesday for Calgary to attend the funeral of Mr. Enoch Clemens, an old friend of his, who passed away on Sunday afternoon at the age of 83 years.

Burnside U.F.A. held its annual meeting on Monday evening, Jan. 18. After the business and reception of the annual reports, the following officers were elected for 1932: Mr. J. W. Brown, president; Mr. Jas. McCulloch, vice-president; Mr. E. R. Dawson, secretary-treasurer.

We extend our congratulations to Miss Margaret Loewen and Mr. Frank Bergen, who were married last Thursday afternoon at the home of the bride's father, Mr. Peter Loewen, in the presence of a large assembly of relatives and friends. Mr. and Mrs. Bergen will make their home at Nakama, where the groom has a good position.

The Community Club is holding a concert and dance in Lone Pine Hall on Friday evening, (tomorrow) January 22nd. Admission to concert, 25c., and a splendid program is being prepared. Redekopp's orchestra will play for the dance, at which a collection will be taken to pay for the music. Lunch will be served.

Lone Pine W.I. met at the home of Mrs. W. G. Dick on Wednesday afternoon, Jan. 13th, with the new president, Mrs. B. Woods in the chair, and the new secretaries, Mrs. Jenkins assisting. Mrs. N. Eckel read an article by Kathleen Strange, winners were elected as follows: Agriculture, Mrs. Thompson; Home Economics, Mrs. N. Eckel; Child Welfare & Public Health, Mrs. W. M. McCulloch; League of Nations, Mrs. Bowles; Temperance, Mrs. R. Loewen; Canadian Industries, Miss Helen Pross; Christmas Thoughts, Mrs. Bert Pross. The next meeting will be held on Feb. 12th at the home of Mrs. Chas. Menden, when Miss Zoek, of Sunnyslope will speak on the "Institute Creed."

RUGBY NOTES

Rugby W.I. met at the home of Mrs. Johnston, with an attendance of fourteen members. All arrangements were completed for the entertainment to be held in Rugby School on February 12th. After all business was finished, the program for the year's work was outlined, and the institute is looking forward to a series of interesting meetings. This branch is holding a sewing course again this year, and also a short course on home nursing. Next month's meeting will be held at the home of Mrs. O. Krebs.

NOTICE OF ANNUAL MEETING.

Public notice is hereby given that a meeting of the electors of the Town of Didsbury and the Didsbury School District No. 652 will be held in the High School building, Didsbury on Friday the 29th day of January, 1932 at 8 o'clock p.m. for the purpose of receiving the auditor's report of the finances of the town up to the preceding thirty-first day of December, and for the purpose of receiving the reports of the chairman of the various committees of the council, and to hear the reports of the school trustees as prescribed by the School Act.

Dated at Didsbury, Alberta this 19th day of January, 1932.

W. A. AUSTIN,
Secretary-Treasurer.

NOTICE OF NOMINATION MEETING.

Town of Didsbury Municipal Elections, 1932, and Didsbury School District No. 652 Elections, 1932.

Public notice is hereby given that a meeting of the electors of the Town of Didsbury and Didsbury School District No. 652 will be held in the Town Office, Didsbury, on Monday, first day of February, 1932 from 11 o'clock in the forenoon until 12 o'clock noon, for the purpose of nominating candidates for the offices of councillors and school trustees for the next ensuing two years.

Given under my hand at Didsbury, Alberta this 19th day of January, A.D. 1932.

W. A. AUSTIN,
Returning Officer.
